## THE SMITHSONIAN INSTITUTE.

A Washington correspondent of the San Francisco Mail gives the following history of the Smithsonian Institute:

An Englishman, but 11 years old when the Declaration of Independence was signed, who lived during the War of 1812, and who never stepped foot into this country, had an intimate friend here, and only one. When the former died in 1819, at Genoa, he left a large estate to a nephew, upon the condition that should he die childless the money should go to the United States to found, at Washington, an establishment for the increase and diffusion of knowledge among men. The nephew died without an heir, and the \$500,000 was left to the United States. After two years litigation in England, Richard Rush, the agent for this country, succeeded in getting to New York eleven boxes of gold, or half a million dollars. The money was loaned to Arkansas first, and was squandered by that State. The bonds given as security were repudiated, and, of course, the money all lost. The Government, as custodians, made an appropriation to cover the amount, and, in 1847, the corner stone of the present Smithsonian—named after the donor, Smithsonian—was laid. The fund now amounts to \$714,000. The library numbers 9,500 volumes. The present great need is more room. Of the forty governments represented at the Centennial thirty-four gave the choice of their exhibits to this institution. The presents were valued at \$500,000, and are now packed in boxes rusting and mouldering, awaiting the tardy action of Congress in providing room for their display.

The Winnemucca Silver State has this to say in regard to railroad lands and the way to purchase them:

All persons who desire to purchase lands from the railroad company should make application to the railroad land agent at San Francisco, personally or by letter, describing the land by section, township and range. An application for lands confers no right or privileges on the applicant. Settlers who in good faith cultivate and improve lands belonging to the company will be given the preference of purchase at the regular price. The lands are sold at \$2 50 and upward per acre, according to quality; terms cash; or in tracts of not less than eighty acres, upon a credit of five years, if desired; that is, twenty per cent. in cash and the remainder at any time within five years, with interest at ten per cent. per annum. Timber and wood land is from \$5 to \$10 per acre, payable in full at the time of purchase. In fixing the value of land, improvements are not taken into consideration. The price fixed on land along the Humboldt, in this vicinity, ranges from \$2 50 to \$10 50 per acre.

## A NIGHT IN A SLEEPING CAR.

It was in the Cedar Rapids sleeper, says the Burlington *Huckeye*. Outside it was dark as the inside of an ink bottle. In the sleeping-car people slept.

Or tried it. Some of them slept, like Christian men and women, peacefully and sweetly and quietly.

Others slept like demons, malignantly, hideously, fiendishly, although it was their mission to keep everybody else awake.

Of these, the man in lower number three was the "boss." When it came to a square snore with variations you wanted to count "lower three" in, with a full hand and a pocketful of rocks.

We never heard anything snore like him. It was the most systematic snoring that was ever done, even on one of those tournaments of snoring, a sleeping car. He didn't begin as soon as the lamps were turned down and everybody was in bed. Oh, no. There was more cold-blooded diabolism in his system than that. He waited until everybody had had a little taste of sleep, just to see how good and pleasant it was, and then he broke in on their slumbers like a winged, breathing demon, and they never knew what peace was again that night.

He started out with a terrific "Grrrrrr!"

That opened every eye in the car. We all hoped it was an accident, however, and trusting that he wouldn't do it again, we all forgave him. Then he blasted our hopes and curled the sweet serenity of our forgiveness by a long drawn "Gw-a-h-h-h-h-h!"

That sounded too much like business to be accidental. Then every head in that sleepless sleeper was held off the pillow for a minute, waiting, in breathless suspense to hear the worst, and the sleeper in "lower three" went on, in long-drawn, regular cadences that indicated good staying qualities.

"Gw-a-h-h-h-h-h! Gw-a-h-h-h-h-h! Gw-a-h-h-h-h-h!"

Evidently it was going to last all night, and the weary heads dropped back on the sleepless pillows, and the swearing began. It mumbled along in low, muttering tones, like the distant echoes of a profane thunderstorm. Pretty soon "lower three" gave us a little variation. He shot off a spiteful "Gwack!"

Which sounded as though his nose had got angry with him and was going to strike. Then there was a pause, and we began to hope that he had either awakened from sleep or strangled to death, nobody cared particularly which. But he disappointed everybody with a guttural "Gurrooch!"

Then he paused again for breath, and when he had accumulated enough for his purpose he resumed business with a stentorian "Kowp!"

He ran through the ranges of the nasal gamut, he went up and down a very chromatic scale of snores, he ran through intricate and fearful variations until it seemed that his nose must be out of joint in a thousand places. All the night and all night through he told his story.

"Gawohl! gurrah! gur r-r! Kowp! Gawawh! gawah-hah! gwack! gwarri! gwah-h-h-h-h-h-h-h!"

Just as the other passengers had consulted together how they might slay him, morning came, and "lower number three" awoke. Everybody watched the curtain to see what manner of man it was that had made that beautiful sleeping car a pandemonium. Presently the toilet was completed, the curtains parted, and "lower number three" stood revealed.

Great Heavens! It was a fair young girl, with golden hair, and timid, pleading eyes, like a hunted fawn's.

WASHOE VS. HUMBOLDT.—The trial of the suit of Washoe county vs. Humboldt county, growing out of bills rejected and bills reduced by the Board of Commissioners of this county, in the case of the State vs. Rover, is set for trial on the 12th, in the District Court at Carson City. Several county officers of this and Washoe county will undoubtedly be subpoenaed as witnesses in the case. District Attorney Harding is confident that he has a good defense, and of course District Attorney Cain of Washoe, is equally confident of success, or he would not have brought suit. The costs will more than cover the amount in dispute.—*Silver State*, 10th.

And a corresponding reduction in all toilet and fancy articles.

OSBURN & SHOEMAKER.

REMOVAL.—Yankee Dodge has removed to the store formerly occupied by Misses Brown & Harney where he will be pleased to see his friends and patrons. He will keep constantly on hand a general assortment of Yankee notions and fancy goods cheaper than any other house in Reno. We will have an auction sale every Saturday evening. Be sure and give us a call before purchasing elsewhere. Don't forget the place, opposite the Reno Opera House.

## IMPORTANT LETTER

From a Distinguished Physician.

No chronic disease has entailed more suffering, or hastened the breaking up of the constitution than Catarrh. The sense of smell, or taste, or sight, or hearing, the human voice, the mind, one or more and sometimes all yield to this destructive influence. A poison it distributes throughout the system, attacks every vital force, and breaks up the most sacred of constitutions. Ignored because but little understood by the medical profession, it is secretly assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands of a more competent and trustworthy. The new and hitherto untold method adopted by Dr. Sanford in the preparation of his Radical Cure, has won many hearty approvals. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz., the acidified blood, while it heals the diseased membrane by direct application to the nasal passages. Its action is based on certain fixed facts, and unless the vital forces are too far exhausted, and in the great majority of cases, effect a cure.

GEORGE BEARD, M. D., NORTON BLOCK, So. FRANKLIN ST., Oct. 1, 1874.

## SANFORD'S RADICAL CURE

It safely claims to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but use it in their families in preference to any of the preparations usually prescribed by physicians.

You are aware, "said a distinguished city physician, that my obligations to the Mass. Medical Society for the honor of recommending and prescribing the Radical Cure, but since I received so much relief from the use of it myself, after a thorough trial of the same, I have privately advised its use, and presume I have sent to your store no less than one hundred of my patients for it."

## UNIVERSAL SATISFACTION.

GENTLEMEN.—We have sold SANFORD'S Radical Cure for nearly one year, and can say confidently that we never sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint yet. We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be convinced of its great merits that their suffering will be relieved. We have been in the drug business for the past twelve years constantly, and sold everything for Catarrh, but yours leads all the rest. If you are poorer you can use the letter or any part of it that you wish.

Very truly yours, S. D. BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 28, 1875.

## COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly medicated strengthening Plaster, forming the best Plaster for neuralgic and aches in the World of Medicine.

## ELECTRICITY

As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has fled the body, restoration by means of electricity is possible. It is the last resort of all physicians (nurses, and has rescued thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this Plaster.

## BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are too well known to require description. Their grateful, healing, soothing, and strengthening properties are known to thousands. When combined in accordance with the most important scientific principles, their healing and strengthening properties are increased tenfold. In this respect our Plaster is the best in use without the aid of electricity.

## TWO IN ONE.

Thus combined, we have two grand medical agents in one, each of which performs its function and unitedly produce more cures than any liniment, lotion, wash, or plaster ever before compounded in the history of medicine. Try one. Price 25 CENTS.

Sold by All Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Another ten-stamp mill is in route for Bodie.

Ore assaying \$4,000 per ton has been struck in the Cherry Creek district.

Twenty-five new mines have been located in Eureka District since January 1st.

Fred. Hart has gone to San Francisco to have his lies published in book form.

The people of Eureka are agitating the question of a new Court House. They need one.

A nugget weighing twenty-five ounces was taken from a placer claim at Coeola lately.

Last week the weather was the coldest ever experienced in the Upper Carson Valley.

There are several French citizens ground sluicing in the hills back of Carson making good wages.

The three furnaces in operation at the Richmond works, Eureka, produce 36 tons of crude bullion every twenty-four hours.

The town of Gold Hill has brought suit against the Caledonia Mining Company for \$571.62 on account of delinquent town taxes.

The Elko Post says that as soon as it became positively known that W. Frank Stewart was to assume editorial management of the *Tuscarora Review*, a prominent bookseller and stationer of that thriving camp sent an order to Bancroft & Co. for 500 copies of Webster's Unabridged.

The Richmond and Eureka Consolidated mines are yielding larger returns than ever before. The ore is much richer on the lower level than near the surface. The average per ton used to be about \$45, it now runs over \$70. Both mines have magnificent ore reserves.

At the annual meeting of the stockholders of the Con. Virginia, held in San Francisco, on Thursday, Supt. Fair reported that the year's product has been \$13,734,019, nearly one-half of which was gold. The sum of \$615,794 had been paid for wages, and \$271,673 for taxes. The condition of the mine was represented as flourishing.

During the past week in the neighborhood of \$80,000 has been distributed among the miners in payment of December's pay-roll. This is a large amount for a new camp like Bodie, and one large company—the Syndicate—to hear from yet. One company, the Standard, paid out \$40,000. These figures are substantial and cheerful proofs that capital is pushing work in Bodie.

A man named Bayley, keeper of the Desert Wells station, near the Utah line, and Ben Cascas, most brutally murdered a man named Harris, near Troy, in Nye county, last week. According to the *Tybo Sun's* account of the affair, after wounding their victim in the leg with a bullet, they crushed in his skull with some blunt instrument and left him yet alive, without attempting to procure for him any assistance. Two days afterwards parties from Wagner's camp found and buried the body. The murderers have not yet been arrested, although they have made no attempt to conceal themselves, or to get out of the way.

The report that the Czar has sworn to eat dinner in Constantinople on Ash Wednesday is a deliberate lie. He simply expressed a wish to a Russian Archimandrite that, if it were consistent with the views of Providence, he might be permitted to receive holy communion on the first day of Lent, somewhere in the neighborhood of the Bosphorus, even if he had to crawl over a million dead Turks.

The decision by the United States Supreme Court, affirming the decision of the Supreme Court of California, sustaining the title of the New Idria Mining Company of the Cost range, about 50 miles southeast of Hollister, will probably end the contest carried on the last fifteen years in the Federal Land Department at Washington, in Congress and in the Courts. There have been thousands if not millions in it.

M. Grévy has been re-elected President of the French Chamber of Deputies, and Duke de Andiffret Pasquier President of the Senate.

The California delegation in the House, after consultation on the subject, have concluded to have all bills concerning the Chinese question referred to the Committee on Education and Labor. This committee has already charge of the Shelby bill, and is so constituted as to be likely to give the question full and fair consideration; besides, it has very little business, and can therefore devote more time and attention to this subject than most other committees could readily give. Efforts for speedy action will, accordingly, henceforth be concentrated upon this committee and upon the Senate Committee on Foreign Relations.

Grove Kennedy, the notorious Kentucky outlaw and murderer, was released December 29th, at Lancaster, the jury finding it impossible to agree. For years the State of Kentucky carried on a vigorous hunt for this outlaw, and nobody dared take him. At length he permitted himself to be arrested. It appears now that nobody dares to convict him. Mr. Kennedy should run for Congress. No one in Kentucky would venture to oppose him.

At the annual meeting of Plymouth Church, Brooklyn, Thursday night a letter was read from Mr. Beecher, in which he referred to the falling off in pew rents this year, and regretting, as a result the narrowing of the work of the Church. He offered to give up one quarter of his salary rather than have this work suffer, and the offer was accepted. This will make Mr. Beecher's salary \$15,000 for this year.

At the annual meeting of the New York Union League Club, Thursday, George Cabot Ward was elected President. Among the list of Vice-Presidents is William Cullen Bryant, William Orton, Peter Cooper, David Dows and Theodore Roosevelt. Resolutions were adopted favoring resumption January 1, 1879, and payment of the public debt in gold or its equivalent.

The New York Independent Greenback party demand: First—To remonetize silver coin to the standard of 1870, and provide for its coinage and issue without limit, making it full legal tender for its face value in payment of all debts, public and private. Second—To repeal the act by which the Government is pledged to resume specie payments.

The Irrigation commission appointed by the California Senate will leave Sacramento next Sunday evening and will visit Modesto, Merced, Fresno City, Visalia, Bakersfield, Los Angeles, San Bernardino, Nevada City, Marysville, Oroville and San Francisco. Their work is mapped out until January 28.

The Salt Lake *Independent* learns that the polygamous heirs of the late Brigham Young are taking action against the executors of his will to break that document, the Church of Latter Day Saints, it is understood, having brought the testator in debt to the amount of some \$1,400,000.

Luttrell has introduced a bill in the House prohibiting the employment of Chines on any of the public works of the United States on or after July 4, 1878. The bill also makes it a misdemeanor for a naval officer to employ them in any capacity whatever.

San Francisco is full of robbers, who are emboldened by the demoralized state of the working classes. It is unsafe to walk at a late hour of night any of the streets. It is proposed to increase the police force from 150 to 250.

Mrs. Sarah Josepha Hale, having reached her ninetieth year, has given up the charge of God's Lady's Book, which she has edited for the last fifty years.

Letters have recently been unearthed and published, showing that Salmon P. Chase would have accepted the Democratic nomination for the Presidency in 1868.

The bonded debt of the State of Mississippi is \$680,500; the State warrants are at par, and the charitable institutions and public schools in a prosperous condition.

The Russians have, after desperate fighting, captured the whole Turkish army defending Chipka Pass, consisting of forty-one battalions, ten batteries and one regiment of cavalry.

MOST IMPORTANT ITEMS IN YESTERDAY'S DISPATCHES.

**A Negro's View of His Race.**  
WASHINGTON, Jan. 11.—J. Willis Menard of Louisiana, who was the colored man ever elected to the American Congress, will deliver a lecture next week to the colored people of this city on the condition and prospect of the negro under the solid South. Menard says the race problem cannot be solved by bayonets; that the product of negro labor is greater than ever; that the race is not dying out, but increasing; that an independent movement in the South will break up the Democratic party in five years, and that the supply of labor in the South is in excess of the demand. He advises his countrymen to emigrate to Hayti and Liberia. "Let them venture everywhere, as the whites do," Menard asserts that the troops at the South were not a source of protection to the negro; that their presence was not only unusually hostile to him, but that their presence had the effect of provoking a larger measure of bad feeling against him than would otherwise have been the case. That a change of some kind was necessary, every reasoning man must admit. The country is sick at heart of this continued discussion of the war issues, and it has no sympathy with any movement whose aim is to fire the Northern heart against the South not in the interest of the negro nor of the public welfare, but purely for political power. The negro has been placed long enough as a trump in the political game, and it is high time for a new deal. The war waged against the Southern policy of the administration is suicidal, and will prove a cause of weakness to the Republican party. The policy is only wise and timely in anticipation of the end made inevitable by public opinion and the urgent necessities of the country.

**Edmunds on the President.**  
WASHINGTON, Jan. 11.—Senator Edmunds has written a letter to the President on the proper relations which should exist between the legislative and executive departments of the government in regard to appointments. As the views set forth by him are in harmony with those known to be entertained by the President, the Republicans who have read them hope that a basis for an understanding between the administration and the Republican Senators may have been here indicated.

**About Polygamy.**  
WASHINGTON, Jan. 11.—Judge Hemingway, who is here in behalf of the Gentile interests of Utah, appeared before the House Committee on Territories yesterday, and made an argument in favor of a bill introduced in the House by Luttrell to abolish female suffrage in that Territory; to prevent the polygamists from serving on juries; to try cases of polygamy; to punish continued living in polygamy, and to otherwise secure fair elections.

**Is Hayes a Subsidiary?**  
NEW YORK, January 11.—The Democratic defeat in the House yesterday evidently inspires a sharp lecture to the Democracy. In the *Sun's* Washington dispatch this morning the correspondent concludes as follows: That there were promises of support for the Texas Pacific railroad can be readily proved. It can be established by competent evidence. It was stipulated before that Hayes should give a pledge in his inaugural that would be satisfactory to the friends of the Texas Pacific. It can be proved that this part of his inaugural which speaks of the material interests of the South was submitted to a representative of the Texas Pacific, one of the Vice-Presidents of the Company for his approval. The influence of the men in Baltimore who are deeply interested in the Texas Pacific as well as other Southern schemes for depleting the national treasury, will be exerted to defeat Blair's movement. They control the press of that city and they own many members of the Legislature. Moreover, Blair is a candidate for United States Senator, and this will array against his memorial the strength of the various competing aspirants. He is, however, a bold, plucky fighter, and will make a gallant struggle. In the meantime there is no hope here until public sentiment makes itself felt. There is uneasiness among the Democrats—the men who were parties to the bargaining last Spring—and this a slight but healthy sign.

**The Great War in the East.**  
CONSTANTINOPLE, Jan. 11.—An armistice has not yet been arranged. The Porte has received the Russian answer to the Turkish Communica-

tion proposing an armistice, intimating that negotiations must be conducted on the basis of eventual peace conditions. The Porte has not yet replied.

have a straight needle, make the "lock  
stitch" have a self adjusting tension and are  
adapted to every variety of sewing for family  
wear, from the lightest muslin to the heaviest  
cloths, and will also sew leather. They are  
especially adapted to the wants of  
Tailors, Dressmakers, Seamstresses,  
Manufacturers of Clothing, Shirts,  
Shirts, Corsets, Ladies' Boots,  
Umbrellas, Etc., Etc., Etc.

**THE HALL TREADLE**  
Is the greatest improvement ever invented in  
connection with the sewing machine, and we  
bring the following out for the Hall Treadle  
have concluded to apply it to every "Home" or "Home  
Shuttle" Sewing Machine sold hereafter on the  
Pacific Coast, without extra charge. (Take  
notice that every other Sewing Machine fitted up  
with the Hall Treadle costs \$12 extra.)  
The Home and Home Shuttle Sewing Machines  
with Hall Treadle attached, are the highest run-  
ning, and superior to any machines, and for all  
practical working purposes.  
**Simplicity, Strength and B**
